Learning Plan — Summary of Educational Program

An original, optional template. Its headings follow the eight points Queensland suggests a summary can show (qld.gov.au: Home education). Write as much or as little as suits your family — it's a summary, not every activity.

Child's first name		Year level		Plan period	

1. About my child

Interests, strengths, how they learn best, previous schooling or achievements, any challenges or adjustments.

2. Goals for this year (short- and long-term)

Educational and personal goals. Include your child's own hopes too.

3. Learning areas, topics and experiences

e.g. English · Mathematics (Lumora maths islands are mapped to Australian Curriculum v9 codes) · Science · HASS · The Arts · Technologies · Health & PE · Languages. Projects, excursions, clubs.

4. How the plan suits my child's age, ability, aptitude and development

5. Teaching strategies and resources
How you'll teach (e.g. short focused sessions, hands-on, games, read-aloud, projects) and the resources you'll use (books, online programs, library, community).

6. Learning environment and wellbeing
Where learning happens; routines; calm spaces; breaks and movement.

7. Social development
Groups, sport, co-ops, family, community activities.

8. How we'll monitor and respond to progress
e.g. dated work samples, observation notes, Lumora report-card scores (best score per island), regular reviews and adjusting the plan.

Optional: QHE also publishes its own planning templates and examples on the QHE registration page. This template is not an official form.
